

ACMCV'2020

7th Annual Catalan Meeting
on Computer Vision

SPOTLIGHT SESSION – BEST ACMCV 2020 PAPERS

The list of authors and papers presented in the spotlight session was the following:

- Vacit Oguz Yacizi (CVC / Wide Eyes Technologies) | [Orderless Recurrent Models for Multi-label Classification](#) (CVPR 2020)
- Ciprian Adrian Corneanu (UB) | [Computing the Testing Error without a Testing Set](#) (CVPR 2020)
- Yaxing Wang (CVC) | [MineGAN: effective knowledge transfer from GANs to target domains with few images](#) (CVPR 2020)
- Lei Kang (CVC) | [GANwriting: Content-Conditioned Generation of Styled Handwritten Word Images](#) (ECCV 2020)
- Pau Rodriguez (ElementAI) | [Embedding Propagation: Smoother Manifold for Few-Shot Classification](#) (ECCV2020)
- Raquel Gil (University of Giessen / UPF) | [Color matching images with unknown non-linear encodings](#) (IEEE Transactions on Image Processing)
- Yi Xiao (CVC) | [Multimodal end-to-end autonomous driving](#) (IEEE Transactions on Intelligent Transportation Systems)
- Adriana Fernandez (UPF) | [CoGANs for unsupervised visual speech adaptation to new speakers](#) (ICASSP)
- Miriam Bellver (BSC) | [Mask-guided sample selection for Semi-Supervised Instance Segmentation](#) (Multimedia Tools and Applications)
- Jordi Gené Mola (UdL) | [Fruit detection and 3D location using instance segmentation neural networks and structure-from-motion photogrammetry](#) (Computers and Electronics in Agriculture)
- Maria Gonzalez-i-Calabuig (UPC) | [Curriculum Learning for Recurrent Video Object Segmentation](#) (ECCV Workshops)
